> Market Systems Development in Fragile and Conflict Affected Situations: Lessons for COVID Recovery

# > States of Fragility

Useful resource from OECD

<http://www3.compareyourcountry.org/states-of-fragility/overview/0/>

## > Key Definitions

- Fragility
  - Humanitarian crises
  - Market-based Programming
  - Market Systems Development
  - The Nexus
- How do Market-based Programming (MBP) and Market Systems Development (MSD) differ?

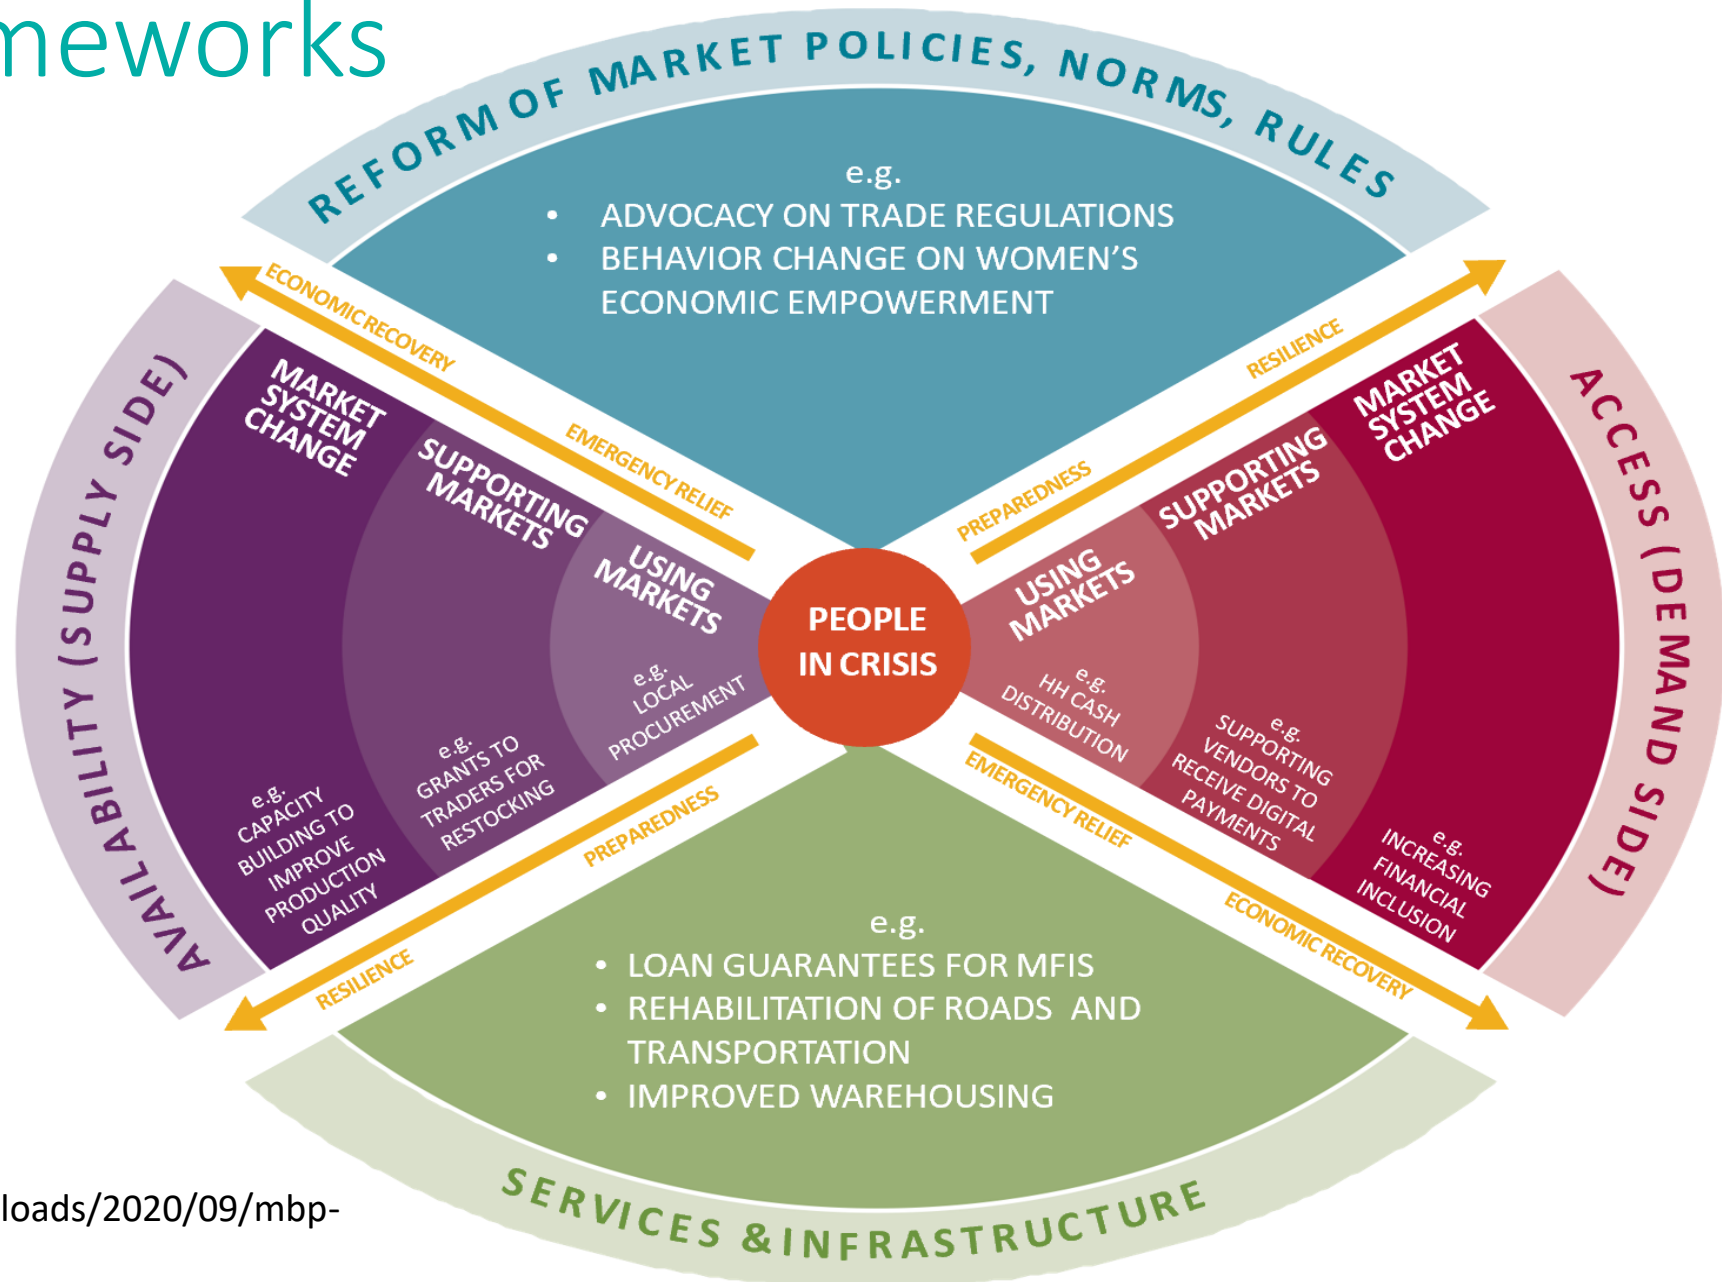

## > Challenges for Market Programmes working across the Nexus:

- Lack of familiarity with systemic approaches – leading to an implicit preference for direct delivery
- Lack of awareness of the capacity of local actors
- Risk aversion/Do No Harm
- Lack of preparation
- Operational culture

# > Common Frameworks

## Market-based programming (MBP) Framework

Markets in Crises Community of Practice (2016)

# > Ten Recommendations for Programming in FCAS
