“Grab the Mic” webinar guidance

Purpose

These guidelines are intended to create clear expectations for BEAM “Grab the Mic” webinars offered through the BEAM Exchange webinar platform.

Webinars support knowledge sharing and learning initiatives which are at the core of BEAM Exchange. BEAM utilises webinars to showcase ideas, experts, knowledge, skills, and engage with the community.

Implemented effectively, webinars will:

- Support learning and innovation
- Stimulate discussion and ideas
- Support effective engagement with the community
- Increase programmes visibility and demonstrate success stories

Since 2014, BEAM has facilitated over 20 webinars. Now we are offering practitioners the opportunity to take the lead on a webinar – the topic, panel and date is your choice – and BEAM will provide technical and general support.

Planning a webinar

To take the lead on a webinar with BEAM, together we will develop a simple action plan to explain the following:

1. Purpose. What is the goal of the webinar and what key messages will be communicated?
2. Innovation. What new knowledge and relevant learning opportunities is the webinar bringing?
3. Audience. Who are you trying to reach at the webinar?
4. Format. Who will be presenting and how long is the webinar?
5. Balance and neutrality. How will you ensure the panel is balanced and representative?
6. Promotion. How will you promote the webinar among your networks?
7. Agree to the responsibilities of webinar lead (next section).

Responsibilities of the webinar lead

- Coordinate with the BEAM team (Sara Karnas) to select a topic, time and date for the webinar. Webinars must be planned and material sent at least 1 month in advance of intended date
• Provide BEAM with the title, a description of the webinar, and name(s) of the presenter(s)
• Source the speaker(s) and chair. At least one presenter and the moderator must be identified one month prior to the webinar. Additional speakers are encouraged
• Ensure there is gender diversity. If the panel consists of two or more people, at least one person should be female
• Develop content in accordance with the Content Guidelines (below) and provide it to the BEAM team to review at least one week before the webinar
• Attend a mock webinar at least one week before the webinar, with a draft version of the power-point presentation
• Prepare to answer questions on the topic during the webinar and in a follow-up a discussion on LinkedIn
• Have access to a good internet connection, or the option to dial in if needed
• Authorisation. If sharing a tool, or lessons from a programme, it is imperative that consent is given from the original source. For example, if you intend to share anecdotes from working on X programme, then X programme must be notified of the intention and what you plan to say, in advance of the webinar
• It should go without saying, but all presenter(s) must be polite, civil and respectful during the webinar.

Content guidelines
• Presenter(s) should be expert(s) on the topic they are presenting
• The power-point presentation must not be text-heavy and the use of images and diagrams is strongly encouraged
• The cover page of the presentation must include the following:
  o The BEAM Exchange logo in the top right-hand corner
  o The presenter(s)’ logo
  o The sub-title “Grab the Mic webinar”
  o The title of the webinar
  o The names of the speakers
  o The date
• The last page of the presentation must include the following:
  o The BEAM Exchange logo in the top right-hand corner
  o Photos and contact details of all presenter(s)
  o A link for more information
  o The presenter(s)’ logos may also be included.

Responsibilities of BEAM Exchange
• Work with the webinar lead to finalise webinar content
• Register participants
• Share the list of participants and questions before the webinar
• Promote the webinar through
  o LinkedIn
  o BEAM website
  o Twitter
  o Email lists
• Promotion of the webinar will clearly state that the webinar is organised by (“host name”) in partnership with BEAM Exchange. This will be reflected by the use of a different BEAM logo.
• Lead on the technical front, i.e. host the webinar and respond to technical queries during the webinar
• If required, a BEAM team member can act as webinar moderator
• Post the webinar recording and presentation on the BEAM website
• Share all questions and post-webinar survey with the host after the event
